

DY7300W

Aramid Fiber / NBR / Wire Reinforced

Characteristic

우수한 품질의 비석면 섬유와 내유성이 뛰어난 고무를 사용하여 시트 내부에 스테인레스 금망을 넣어 만든 고온, 고압 우수한 금망입 비석면 시트이다. (표면 Graphite 처리 가능)

This is an excellent quality asbestos free gasket, material with stainless steel wire-mesh inserted to be suitable for high temperature and high pressure. Manufactured by the hot calender process using high quality non-asbestos fibers and oil-resistant rubber.

Application

Short-term peak Temperature	400°C (752°F) Max
Short-term peak Pressure	100kgf/cm ² (9.8Mpa)

Sizes

Thickness(mm)	1.0~3.2
Sheet(mm)	1500x3810

- Applied Fluids: Suitable for water, Alkali, Salt Solution, Hot Oil, etc
Not be used in Steam, Strong Acid with Alkali, Soluble Chemicals.
